Prices	19.95 Euros	49.95 Euros	Free 30 da

Important note:

All editions uses only one setup file. Only your registration information will activate or deactivate functions of higher editions after registration. The evaluation copy (30 days time limit) offers all available functions acc. to the Corporate Edition.

After a registration you will get information to register the program. Then your registration decides which options are available or not in Dupehunter Professional. Features of the Corporate edition will be deactivated after registration of a Business edition automatically.
